## WHEN THERE IS NO ROOM FOR ERROR

The perfect solution for hospitals and health centres seeking to keep heat sensitive medicines according to DIN 58345 between +2 °C and +8 °C. Integrated fan for maintaining a constant temperature and an audible warning if the door is left open for 20 s.

With its reliably constant temperature courtesy of an integrated fan, the Dometic HC 302D is the ideal solution for hospitals and health centres wishing to store heat sensitive medicines. Contents are cooled to between +2 °C and +8 °C. An audible warning is triggered if the door is left open for more than 20 s. The HC 302D has a door lock for secure storage and drawers with flexible compartments for organised arrangement of up to 22 l of contents. The draws also pull-out for added convenience, designed in all ways to give users peace of mind in high pressure environments.

- DIN 58345 certified
- Keeps heat sensitive medicine between +2 °C and +8 °C
- An integrated thermometer displays the inside cooling performance. Integrated fan for reliably constant temperature
- Features an audible warning system if the door is open for more than 20 s
- Compressor cooling technology
